

MSC IN ECONOMICS AND MANAGEMENT*

STUDYING IN AN INTERNATIONALLY RENOWNED ENVIRONMENT WITH YOUR OWN PERSONAL PROFILE

As a CEO of TDC Hosting, an IT outsourcing company, I am responsible for all aspects of the business from sales to operation. In my position it is crucial to understand the full range of business activities, right from product development to key account management, and I draw on my knowledge of economics, sales and marketing all the time. I feel that my MSc in Economics and Management gave me a solid foundation that allows me to continuously improve my skills.

ESBEN KOLIND LAUSTRUP

MSc in Economics and Management
CEO, TDC Hosting

AN INTERNATIONALLY RENOWNED RESEARCH ENVIRONMENT

The two-year MSc programme in Economics and Management gives students an in-depth knowledge of a range of economics and management disciplines. The programme is flexible, giving the students the opportunity to specialise in a specific field or in a combination of economics and management topics.

Researchers in the programme work in the fields of accounting, finance, macroeconomics, microeconomics, econometrics, and economics of business. The MSc programme allows students to create a personal academic profile within one or across several of these fields. Progress in the chosen courses is closely followed and monitored to ensure the students' academic development. Each semester, the department offers about thirty elective courses. The broad range of courses allows you to specialise in a particular field of interest and to compose an individual course programme.

IN THE COMPANY OF NOBEL LAUREATES

Students on the programme are based in the Department of Economics and Business Economics. The department is renowned for setting high academic standards. It engages in close collaboration with many leading international researchers, including Nobel Laureates Robert F. Engle and, until his death in 2014, Dale T. Mortensen. The department's outstanding research environment includes the Centre for Research in Econometric Analysis of Time Series (CREATES), where Nobel Laureate Robert F. Engle serves as member of the advisory board.

INTERNATIONAL DIVERSITY

The academic environment at the department is characterised by international diversity: more than one-third of its academic staff and PhD students have an international background. The international atmosphere provides the basis for an enriched and exciting student life.

GRADUATES IN HIGH DEMAND

Economics and management graduates are in very high demand on the labour market. Many graduates achieve top executive positions in the corporate world (e.g. in financial institutions and consulting firms) or management advisory positions in the public sector (e.g. in ministries and local authorities).

Moreover, the international character of the programme allows graduates to work with equal ease in both Danish and international organisations, consulting firms, ministries, government agencies and financial institutions – including commercial banks, mortgage institutions, pension funds, insurance companies and investment banks. Students who are interested in pursuing an academic career may also progress to the PhD programme. The department offers a special transitional arrangement for honours students who wish to continue their research training in the PhD programme.

AARHUS BSS

Aarhus BSS (School of Business and Social Sciences) is one of Aarhus University's four faculties. With approximately 14,000 full-time students, several thousand part-time students, more than 270 PhD students and more than 570 faculty members, Aarhus BSS ranks among the largest business schools in Europe and is Denmark's biggest business and social sciences unit at university level. Building on its broad academic base, it encompasses both traditional business and social science disciplines.

LEARNING IN AN INTERNATIONAL CONTEXT

At Aarhus BSS, we conduct research and teaching at the highest academic level. We are dedicated to imparting to our students exactly the knowledge, skills and experience that are in demand – the skills that are essential for engaging in professional business activities in a global marketplace.

Our broad scope enables us to attract researchers, lecturers and students from all over the world. With their help, we have built an international environment in which academic and cultural views are exchanged, experiences gathered, and friendships formed.

Our students are encouraged to take a semester abroad at one of Aarhus BSS's approximately 300 partner universities around the world. Studying abroad is an excellent opportunity for you to expand your horizon academically, culturally and personally, and for you to acquire valuable international experience and qualifications that are in high demand in companies and organisations everywhere.
