

MSC IN ECONOMICS AND BUSINESS ADMINISTRATION – FINANCE*

IMMERSE YOURSELF IN THE FASCINATING DIVERSITY OF FINANCIAL MARKETS

GLOBAL FINANCIAL MARKETS

Financial markets are vital to the current and future stability of firms, government bodies, nations – and of course to individuals and to society as a whole. The MSc in Finance will provide you with the knowledge and competencies you need to work in the world of international finance.

The MSc in Finance fuses rigorous academic research with applied skills and competencies. Focusing on global finance, the programme will prepare you for today's highly developed and integrated financial markets, in which graduates with degrees in finance are increasingly sought at the highest international level.

Financial decisions are to a large extent based on empirical observations. Thus acquiring the skills to apply econometric methods is part of our programme. In our experience, students gain much more from their studies when they have an interest in quantitative methods.

UNIQUE PROGRAMME STRUCTURE

The MSc in Finance is a unique programme that allows you to work with internationally respected academic staff in an international environment. In the first year the programme addresses the key concepts of asset pricing, corporate finance, and bank management so as to familiarise you with the challenges of the financial markets. In the third semester, you can choose elective courses at Aarhus University, AU Summer University or (as an exchange student) at one of 300 partner universities abroad. You also have the possibility to combine electives with an internship to strengthen your practical skill-set. Finally, the fourth semester is devoted to the master's thesis.

QUALITY TEACHING IN AN INFORMAL SETTING

The MSc in Finance is dedicated to the highest-quality teaching in an informal and egalitarian learning environment. Students are always welcome to approach the teaching staff, and they are expected to participate actively in the classroom. Collaborating in small groups on projects gives students the chance to make the most of the international student environment.

▲ I have always been interested in maths and numbers, and I liked the idea of studying and working within this area of interest. My time at Aarhus BSS particularly improved my analytical abilities. As the Head of HR Analytics and Reporting, I support all HR processes in Dansk Supermarked. We support both strategic and tactical management decisions by providing analyses and facts that improve the quality of the decision-making.
