

# MSC IN ECONOMICS AND BUSINESS ADMIN. – MANAGEMENT ACCOUNTING AND CONTROL\*

DELVING INTO A KEY ASPECT OF BUSINESS ADMINISTRATION

Management accounting is fundamental to business administration. The MSc programme in Management Accounting and Control covers management accounting techniques and their application in production companies, service industries, and in the public sector. The programme highlights the role and performance of the management accountant, both locally and in an international context.

## IMPROVING DECISIONS

The Management Accounting programme seeks to equip students with a range of relevant management accounting concepts and theories so as to build a solid foundation for practice-oriented decision-making.

The programme aims to develop management technologies and test theories within production, reporting, analysis and managerial use of financial as well as non-financial information. All management technologies and theories aim to be used for communicating financial events in the organisation, influencing decisions on resource allocation, and for improving insight and feedback to the management of the organisation.

## PROGRAMME STRUCTURE

The programme applies a variety of teaching methods and types of evaluation. Students can expect traditional lectures, lectures with group exercises, and lectures dedicated to casework. AU encourages and expects student participation – because the ones who work are the ones who learn.

An internship during the third semester is also recommended. This gives students the chance to experience and address some of the theoretical problems discussed during the first and second semester. This creates an appetite for more theory and is the foundation for writing a solid thesis.

## SOCIAL AND ACADEMIC ACTIVITIES

Aarhus BSS hosts a rich and varied programme of activities for you as a student, both study-related and social. Our many student associations host events ranging from lectures and company events to career days and sports days, Friday bars and celebrations, so there is plenty of scope for meeting and networking with like-minded people, discovering new areas of academic interest, and socialising with fellow students.

## CAREERS

Graduates from the Management Accounting and Control programme are qualified for a variety of different types of job. Many have found jobs as controllers across a range of different organisations, and some have become business consultants. Our graduates have taken up jobs both in Denmark and abroad, and their attractive skill set allows them to climb their chosen career ladder rapidly.

◀ I work as a management consultant at Deloitte Consulting. My work is project-based and focuses on the finance function within larger companies. I provide consultancy for various companies, optimising financial processes and procedures. As a result, my work days may be very different depending on what project I am working on. Sometimes I work at Deloitte Consulting, sometimes at the companies where I provide consultancy.

### LUISE RIISGAARD MØNNIKE

MSc in Management Accounting and Control  
Senior Consultant, CFO Services, Deloitte Consulting

## AARHUS BSS

Aarhus BSS (School of Business and Social Sciences) is one of Aarhus University's four faculties. With approximately 14,000 full-time students, several thousand part-time students, more than 270 PhD students and more than 570 faculty members, Aarhus BSS ranks among the largest business schools in Europe and is Denmark's biggest business and social sciences unit at university level. Building on its broad academic base, it encompasses both traditional business and social science disciplines.

## LEARNING IN AN INTERNATIONAL CONTEXT

At Aarhus BSS, we conduct research and teaching at the highest academic level. We are dedicated to imparting to our students exactly the knowledge, skills and experience that are in demand – the skills that are essential for engaging in professional business activities in a global marketplace.

Our broad scope enables us to attract researchers, lecturers and students from all over the world. With their help, we have built an international environment in which academic and cultural views are exchanged, experiences gathered, and friendships formed.

Our students are encouraged to take a semester abroad at one of Aarhus BSS's approximately 300 partner universities around the world. Studying abroad is an excellent opportunity for you to expand your horizon academically, culturally and personally, and for you to acquire valuable international experience and qualifications that are in high demand in companies and organisations everywhere.
